Education

Dublin City University — Dublin, IR
Bsc, Data Science and Artificial Intelligence — *Sep 2026*

Gatik Junior College — Hyderabad, IN
12th grade, Science Stream, 94% in boards. — *May 2025*

Sri Chaitanya Techno Schools — Hyderabad, IN
10th Grade, 90% in boards. — *April 2023*

Experience

Data Scientist — Aug 2025 – Jan 2026
smallest.ai — *Bangalore, IN*

- Developed a multilingual text normalization model using encoder-based architecture and custom NER classification, supporting 16 Indic and international languages with sub-10 ms inference latency.
- Worked on building lightning v2, a multilingual TTS model for 21 languages, consisting of Indian and European.
- Designed and maintained data pipelines, preprocessing, and analytics workflows for large-scale multilingual datasets.

ML Engineer — May. 2023 – July 2025
IITH - A.I CoE Labs — *Hyderabad, IN*

- Developed AI frameworks for urban infrastructure monitoring, planning, and analysis.
- Worked on hotspot and anomaly detection using ML models for translational research.

Research Engineer — Feb 2022 – Jan 2023
INAI Labs (IIIT Hyderabad) — *Hyderabad, IN*

- Developed a pre-earthquake risk assessment solution for buildings, collaborating with Prof. Pradeep Kumar Ramancharla.
- Built various vision models identification for brick masonry & reinforced concrete, and build models for algorithmic risk calculations.
- Enabled civil inspectors to assess building safety quickly and accurately before earthquakes.

Data Scientist — Aug 2021 – Jan 2022
Infinity Learn — *Hyderabad, IN*

- Worked on building data models and analytics to track student performance and learning outcomes for JEE and NEET aspirants.
- Developed dashboards and insights to monitor application performance and improve educational solutions.

Computer Vision Intern — May 2021 – Aug 2021
IIT Hyderabad — *Hyderabad, IN*

- Worked with Dr. Vineeth N Balasubramanian's student led team, under plant phenotyping project, Leaf Counting Challenge, achieving 0.68 MAE with Xception model.
- Ranked 2nd on the leaderboard, gaining hands-on computer vision experience.

Projects

sahAIam | *Python, FastAPI, Twilio, ASR, Docker, LLMs* — May 2024 – Sep 2025

- Built sahAIam, an AI phone assistant for the elderly and feature-phone users, accessible without smartphones or internet.
- Supports 100+ languages and handles tasks like queries, cab booking, directions, and reminders.
- Recognized in Samsung's SFT Top 10 and featured by Ola CEO Bhavish Aggarwal.

universis.tech | *Python, Django, React JS, MongoDB, RAG* — May 2024 – Feb 2025

- Led backend development for an AI-powered medical coding app that automates ICD-10-CM and CPT code generation from patient charts using NLP and machine learning.

- Built models that provide accurate code suggestions, detailed feedback, and quote generation, enhancing coding efficiency and quality.
- Invited for Ycombinator interview, and got in Top 5 for WTF cohort

Hastavaani | *Python, Arduino, TF-lite micro, ESP-8266, SEED* May 2023 – May 2025

- Co-founded Hastavaani, developing smart gloves that convert sign language into speech in real time.
- Awarded grant by Gatik Junior College to advance development and enhance user experience.

Leverage | *Python, Django, React JS, GPT-4o, MongoDB, Docker* May 2022 – May 2023

- Co-founded Leverage and led backend development for an AI-powered college counseling app.
- Built features including an essay review system, real-time chat guidance, and an AI-based college picker for personalized student recommendations.
- Recieved 10k MAUs, Top College Counselling comapanies whitelabelled Leverage.

Technical Skills

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS, R
Frameworks: Tensorflow, Pytorch, Flask, NumPy, Pandas, Scikit-learn, FastAPI
Developer Tools: Git, Docker, GCP, AWS, Azure
